JABATAN GEOGRAFI

DEPARTMENT OF GEOGRAPHY

PENGENALAN

Geografi menjadi subjek akademik di peringkat pengajian tinggi pada tahun 1928 di Kolej Raffles, Singapura. Selepas kemerdekaan Malaya, Universiti Malaya telah ditubuhkan pada tahun 1959 di Kuala Lumpur. Jabatan Geografi merupakan antara jabatan yang pertama ditubuhkan di Universiti Malaya.

Jabatan kini menawarkan program Sarjana Muda yang membawa kepada Ijazah Sarjana Muda Geografi (BA) dan Pengajian Siswazah melibatkan Sarjana Sastera (MA) dan Doktor Falsafah (PhD) secara penyelidikan di peringkat lepasan ijazah.

Program ini menggabungkan konsep sains, sains sosial, geografi fizikal dan manusia ke arah interaksi kompleks memahami perspektif geografi. Pendekatan antara disiplin dicapai daripada penyatuan beberapa bidang kajian, termasuk geografi manusia, biogeografi, geografi ekonomi, geografi fizikal, geografi bandar, geografi sosial, kuantitatif dan analisis kualitatif, Sistem Maklumat Geografi (GIS), Penderiaan Jauh, Kartografi dan banyak lagi.

INTRODUCTION

Geography became an academic subject at the tertiary level in 1928 in the Raffles College, Singapore. After the independence day of Malaya, the University of Malaya was set up in 1959 in Kuala Lumpur. The Department of Geography was amongst the first department established in the University of Malaya.

The department currently offers an undergraduate programme leading to the Bachelor of Geography (BA) and Postgraduate studies involve the Master of Arts (MA) and the Doctor of Philosophy (PhD) by research at the postgraduate level.

This programme incorporates the concept of science, social sciences, physical and human geography towards the understanding complex interactions of the geographical perspective. The interdisciplinary approach is achieved from the consolidation of several fields of studies, including human geography, biogeography, economic geography, physical geography, urban geography, social geography, quantitative and qualitative analysis, Geographic Information System (GIS), Remote Sensing, Cartography and many more.

SINOPSIS KANDUNGAN KURSUS Kursus ini memperkenalkan kaedah analisis sistem kepada proses dan bentuk geografi fizikal. Komponen-komponen utama alam sekitar fizikal yang akan diperkenalkan dan dibincangkan adalah seperti atmosfera, geofizik, biosfera, cryosfera, hidrosfera dan lautan. Kursus ini juga akan membincangkan perubahan-perubahan yang terjadi secara sengaja ataupun tidak daripada aktiviti manusia. Kaitan suap balik antara satu komponen dengan komponen akan juga dibincangkan.	SYNOPSIS OF COURSE CONTENTS <i>This course introduces the students to systems approach forms and processes in physical geography. The main components of the physical world which will be analyzed include the atmosphere, the biosphere, the hydrosphere and the lithosphere. The course will also touch on the effects, whether intended or otherwise, of human interactions on the physical world.</i>

JABATAN INGGERIS

DEPARTMENT OF ENGLISH

PENGENALAN

Jabatan Inggeris mempunyai sejarah yang gemilang. Ia merupakan Jabatan Inggeris tertua di negara ini dan diasaskan pada 1949 semasa penubuhan Fakulti Sastera Universiti Malaya di Singapura. Jabatan Inggeris kemudiannya menjadi antara jabatan yang pertama ditubuhkan di kampus Lembah Pantai, Kuala Lumpur apabila Fakulti Sastera dan Sains Sosial diasaskan di Malaysia pada tahun 1959.

Kini, Jabatan Inggeris kekal unik walaupun sudah adanya jabatan-jabatan Inggeris lain di Malaysia kerana ia merupakan satu-satunya jabatan yang mempunyai komitmen berterusan kepada kesusasteraan Inggeris tradisional, dari Chaucer dan Shakespeare hingga ke kesusasteraan Victorian dan Modenis. Berdasarkan pengkhususan dan kajian kakitangan akademiknya, Jabatan Inggeris mampu menawarkan kepakaran dalam pelbagai bidang kesusasteraan, termasuk kesusasteraan Medieval, Renaissance, Romantik, Victorian, Modenis, Pascamodenis, dan Pascakolonial (terutamanya kesusasteraan Malaysia), serta juga kesusasteraan pengembaraan, kritikan-eko, kesusasteraan Afrika, kesusasteraan feminis, drama moden, teori sastera dan banyak lagi.

Selain ijazah pertama, jabatan menawarkan program-program ijazah lanjutan (Sarjana dan Doktor Falsafah). Tambahan kepada pengajaran, jabatan juga aktif dalam penyelidikan dan aktiviti-aktiviti profesional, dan giat menganjurkan ceramah, seminar dan persidangan di peringkat kebangsaan dan antarabangsa.

Kami pernah menjadi tuan rumah kepada tokoh-tokoh ternama seperti Michael Pearson, Gayatri Chakravorty Spivak, Scott Slovic, Ien Ang, Yasmine Gooneratne, Benedict Anderson, Harish Trivedi, Sukanta Chaudhuri dan Pheng Cheah. Antara alumni cemerlang yang telah banyak menyumbang kepada pembangunan negara termasuk Shirley Geok-lin Lim, Razali Ismail, K.S. Maniam, Chin San Sooi, Rebecca Santa Maria dan Leow Puay Tin.

INTRODUCTION

The Department of English has a distinguished history. It is the oldest Department of English in the country, and can trace its beginnings to the establishment of the Faculty of Arts at the University of Malaya in Singapore in 1949. The Department of English subsequently became one of the first departments of the Faculty of Arts and Social Sciences set up on the present campus in Lembah Pantai, Kuala Lumpur in 1959.

The department's identity, which proudly sets it apart from every other Department of English in Malaysia, lies in its continued commitment to coverage of traditional British literature, from Chaucer and Shakespeare to the Victorians and the Modernists. Through its academic staff's specialization and research interests, the Department offers expertise in a wide range of literary fields, including Medieval literature, Renaissance literature, Romantic literature, Victorian literature, Modernist and Postmodernist literature, Postcolonial literatures (with a strong interest in Malaysian literature), Travel literature, Ecocriticism, African literature, Feminist literature, Modern drama, Literary theory and more.

In addition to our undergraduate enrolment, the department has a lively postgraduate (Master's and Doctoral) student body. Our teaching, research and professional activities are also regularly energized by visiting faculty and through the convening of talks, seminars and conferences at both national and international levels.

We have hosted distinguished scholars such as Michael Pearson, Gayatri Chakravorty Spivak, Scott Slovic, Ien Ang, Yasmine Gooneratne, Benedict Anderson, Harish Trivedi, Sukanta Chaudhuri and Pheng Cheah. Notable alumni who have contributed significantly to the development of the nation include Shirley Geok-lin Lim, Razali Ismail, K.S. Maniam, Chin San Sooi, Rebecca Santa Maria and Leow Puay Tin.

AIC2004: POSTCOLONIAL LITERATURE: THEMES AND TROPES

SYNOPSIS OF COURSE CONTENTS

This course will introduce students to the expanding body of “postcolonial literature,” a term used to describe the work of writers from formerly colonized nations. It will focus primarily on writing in English as it developed from the experience of British colonization in Africa, India, and the Caribbean. By reading a diverse selection of texts — including poetry, short stories, and novels — students will examine how the lives and identities of characters have been radically altered through the experience of colonialism. In doing so, the course will engage with the major themes, critical vocabulary, and issues and problems surrounding postcolonial literature, theory and criticism — including nation and cultural identity, gender and sexuality, migration, diaspora, resistance, cross-cultural transformations, and the role played by English language and literatures in an increasingly globalized world — within our class discussions and in writing coherent, effective critical essays.

LEARNING OUTCOMES

At the end of the course, students will be able to:

1. *Identify a range of “postcolonial” texts and themes*
2. *Analyse information, synthesize views and make connections within and between texts*
3. *Be critically aware of and explain the relation between ideas and issues in the texts with current socio-political and cultural contexts*
4. *Have acquired a critical vocabulary regarding the themes and terms of analysis used in postcolonial critical essays and research projects/portfolios.*

JABATAN PENGAJIAN ANTARABANGSA DAN STRATEGIK

DEPARTMENT OF INTERNATIONAL AND STRATEGIC STUDIES

PENGENALAN

Pengajaran Hubungan Antarabangsa diperkenalkan buat pertama kalinya pada tahun 1970-an di bawah Jabatan Sejarah. Atas permintaan yang meningkat dalam disiplin ini, Rancangan Pengajian Antarabangsa (RPA) telah ditubuhkan di bawah naungan Pejabat Dekan, Fakulti Sastera dan Sains Sosial pada tahun 1992. Pada tahun yang sama, RPA mula menawarkan kursus di peringkat sarjana muda dalam bidang Pengajian Antarabangsa, di mana kumpulan pertama penuntut RPA telah dianugerahkan ijazah mereka pada tahun 1996. Selain daripada program sarjana muda, Ijazah Sarjana Sastera dan Ijazah Doktor Falsafah (penyelidikan) turut diperkenalkan pada tahun 1992. Pada tahun 1999, RPA berkembang dan dinaikkan taraf menjadi Jabatan Pengajian Antarabangsa dan Strategik (JPAS). Pada tahun yang sama, Jabatan memperkenalkan program Ijazah Sarjana dalam Pengajian Strategik dan Pertahanan. JPAS melancarkan jurnal pertamanya, the *Malaysian Journal of International Relations* (MJIR) pada tahun 2013.

INTRODUCTION

The discipline of International Relations was first introduced to the University of Malaya in the 1970s under the Department of History. Due to an increase in demand for this discipline, in 1992, the International Studies Programme (ISP) was established under the auspices of the Dean's Office, with the first batch of undergraduates enrolling in 1992 and graduating in 1996. Apart from the introduction of the undergraduate programme, the department also began offering the M.A. and Ph.D. (by research) in 1992. In 1999, the ISP was upgraded and expanded to become the Department of International and Strategic Studies (JPAS). In the same year, the department also introduced the Master in Strategic and Defence Studies programme. JABATAN PENGAJIAN ASIA TIMUR

DEPARTMENT OF EAST ASIAN STUDIES

PENGENALAN

Jabatan Pengajian Asia Timur (DEAS) di Universiti Malaya telah ditubuhkan pada tahun 1996. Sejarahnya bermula dengan penubuhan Program Pengajian Jepun yang telah dirasmikan pada tahun 1993. Ia telah dikembangkan lagi hasil daripada penstrukturan semula Fakulti Sastera dan Sains Sosial pada awal tahun 1990an.

DEAS menawarkan program Ijazah Sarjana Muda Pengajian Asia Timur, di mana pelajar boleh memilih untuk mengkhusus dalam Pengajian China, Pengajian Jepun atau Pengajian Korea. Di peringkat antarabangsa, China, Jepun dan Korea Selatan adalah pemain global yang merupakan rakan ekonomi dan strategik yang penting kepada Malaysia. Pertumbuhan pesat perdagangan dua hala antara Malaysia-China, Malaysia-Jepun dan Malaysia-Korea Selatan serta berkembang pelaburan Asia Timur di Malaysia, merangsang permintaan untuk individu yang pakar dalam hal ehwal Asia Timur, termasuk bahasa dan budayanya. Oleh itu, perkembangan Pengajian China, Pengajian Jepun dan Pengajian Korea adalah penting atas dua sebab: bagi memenuhi permintaan pasaran kerja tempatan ke atas pakar Asia Timur dan bagi mengukuhkan lagi hubungan dua hala.

Dengan kepentingan Asia Timur dalam hal ehwal global, serta kepentingan ekonomi dan strategik terhadap hubungan Malaysia-Asia Timur, pengetahuan tentang Asia Timur bukan sahaja memberi manfaat kepada mereka yang akhirnya akan menjadi pakar Asia Timur dalam konteks intelektual, tetapi juga mereka dalam bidang-bidang profesional yang lain.

Buat masa ini, Universiti Malaya adalah satu-satunya universiti di Malaysia yang menawarkan ijazah sarjana muda interdisiplin dalam bidang Pengajian Asia Timur. Program ini menawarkan pengajian menyeluruh tentang Asia Timur serta latihan yang lebih khusus dalam bidang tertentu. Menjurus dalam bidang Pengajian Asia Timur akan menyediakan pelajar asas yang kukuh sebelum menceburi pelbagai kerjaya dalam sektor swasta dan awam.

INTRODUCTION

The Department of East Asian Studies (DEAS) at the University of Malaya was established in 1996. Its history began with the establishment of the Japan Studies Program that was inaugurated in 1993. It was further developed as a result of the restructuring of the Faculty of Arts and Social Sciences in the early 1990s.

The DEAS offers program leading to the Bachelor of East Asian Studies, where students can choose to specialize in China Studies, Japan Studies or Korea Studies. On an international level, China, Japan and South Korea are global players which are important economic and strategic partners to Malaysia. The rapid growth of bilateral trade between Malaysia-China, Malaysia-Japan and Malaysia-South Korea as well as growing East Asian investments in Malaysia, spurred demand for individuals who were experts on East Asian affairs, language and culture. Thus, the expansion of China Studies, Japan Studies and Korea Studies was essential for two reasons: in order to fulfill the demand in the local job market for East Asian experts and to further strengthen bilateral relations.

With the importance of East Asia in global affairs, as well as its economic and strategic significance to Malaysian-East Asian relations, the knowledge of and on East Asia benefits not only those who will eventually become East Asian experts in the intellectual context, but also those in other professional fields.

At present, the University of Malaya is the only university in Malaysia that offers an interdisciplinary bachelor's degree in East Asian Studies. The program offers a well-rounded study of East Asia as well as more specialized training in particular areas of interest. Majoring in East Asian Studies provides students with a strong foundation for a variety of careers in the private and public sectors.

INTRODUCTION

THE DEPARTMENT OF CHINESE STUDIES, FACULTY OF ARTS AND SOCIAL SCIENCES was established in 1963 and has been steadily flourishing for the past 53 years. It has the prestige of being the oldest Chinese Studies Department in Malaysia, and remains an important centre of learning and research for Chinese Studies in the region. Since its founding, the department has produced students of high calibre. Many of our graduates have won scholarships to pursue further education in renowned universities abroad, whilst others are prominent figures in their respective career paths.

As a major Department of Chinese Studies in South-east Asia region, the Department strives to become an alternative venue for Chinese-language study and research besides China, Taiwan and Hong Kong. This would be in tandem with Singapore's efforts to globalise.

The Department of Chinese Studies has developed close relationships with many major foreign universities, especially those in China, Taiwan as well as Hong Kong. The significance is that not only the Department would further consolidate its academic achievements through insightful interactions with these universities, whereas students graduated from the Department might also obtain more opportunities provided by these foreign institutions of higher learning.

The Department of History is fully committed to objective and impartial study of the past and in exploring the boundaries of the discipline to better represent the past. Our faculty is involved in a number of international collaborative research projects and also serves as reviewers for prestigious international journals. On the local front, our faculty serves as official reviewers for the Ministry of Education, mainly in assessing secondary schools' history textbook. These include various consultation services in the field of history to government and private institutions.

Strongly committed to an integrated and holistic education, we encourage our students to explore and experience new ideas and areas of history. Right from the start students are exposed to historical thinking skills. Students are taught to appreciate historical evidence and analyse and interpret primary and secondary sources creatively and critically.

ENVIRONMENTAL STUDIES PROGRAM

PENGENALAN

Program Pengajian Alam Sekitar telah ditubuhkan di Universiti Malaya sejak tahun 1991 di bawah pentadbiran Jabatan Geografi, Fakulti Sastera dan Sains Sosial.

Program Pengajian Alam Sekitar menawarkan program Sarjana Muda yang membawa kepada Ijazah Sarjana Muda Pengajian Alam Sekitar (BA) dan Pengajian Siswazah melibatkan Sarjana Sastera (MA) dan Doktor Falsafah (PhD) secara penyelidikan di peringkat lepasan ijazah.

Program ini merangkumi konsep sains, sains sosial, fizikal dan interaksi manusia ke arah pemahaman alam sekitar yang mampan. Pendekatan antara disiplin dicapai daripada penyatuan beberapa bidang kajian, termasuk etika alam sekitar, pengurusan alam sekitar, alam sekitar fizikal, manusia dan alam sekitar, Sistem Maklumat Geografi (GIS), *Remote Sensing*, Kartografi dan banyak lagi.

AID3006: PENGURUSAN SUMBER AIR

AID3006: WATER RESOURCES MANAGEMENT

SINOPSIS KANDUNGAN KURSUS Air merupakan asas semua kehidupan yang menghadapi cabaran yang semakin meningkat berkaitan dengan ketulenan dan ketersediaan air. Modul ini mengenal pasti isu-isu utama dalam ilmu pengurusan sungai, ketidakpastian dalam reka bentuk projek-projek pemulihan sungai yang mampan, dan menerangkan pelbagai cabaran untuk pengurusan mapan yang akan menjadikan sumber air lebih berharga di peringkat antarabangsa. Di seluruh dunia, dasar dan pengurusan air mula mencerminkan sifat asas dan salingkaitan sumber hidrologi dengan Pengurusan Bersepadu Sumber Air (IWRM), berdasarkan pemahaman bahawa banyak kegunaan yang berbeza sumber air terhad adalah saling bergantung. Ini muncul sebagai alternatif yang diterima oleh sektor demi sektor, gaya pengurusan atas ke bawah (top down) yang telah dikuasai pada masa lalu. Modul ini akan dimulakan dengan memeriksa bagaimana fungsi sistem sungai, menekankan bagaimana saling berhubungan antara hidrologi, geomorfologi dan ekologi menimbulkan sungai sihat. Beberapa paradoks akan dibincangkan contohnya bagaimana, manakala banjir adalah bencana alam yang paling biasa dan menyebabkan lebih banyak kematian dan kerosakan, ianya juga mengekalkan kehidupan akuatik dan biodiversiti sungai; bagaimana	SYNOPSIS OF COURSE CONTENTS <i>This module will begin by examining how the river system functions, emphasizes how interconnected between hydrology, geomorphology and ecology generate healthy river. Some paradoxes will be discussed for example, how, while the floods are the most common natural disaster and because more death and destruction, they also preserve aquatic life and biodiversity of the river; how the aquatic systems are especially vulnerable to species invasions; and how the design of dam to supply water can destroy the affected systems. This module will examine pressing issues and challenges of the 21st century in terms of development and water supply issues, water rights and governance, geopolitical issues that foster and hinder international river management, including practical ways of restoring polluted rivers and wetlands and broader IWRM challenges.</i>

RANCANGAN PENGAJIAN GENDER

GENDER STUDIES PROGRAMME

PENGENALAN

RANCANGAN PENGAJIAN GENDER (RPG) mula diperkenalkan pada sesi 1994/1995, di bawah naungan Pejabat Dekan, Fakulti Sastera dan Sains Sosial. Rancangan ini bersifat multidisiplin dan menawarkan pelbagai kursus yang menggabungkan aspek teori dan praktikal dalam antara lain bidang penyelidikan, pembangunan, budaya, agama, keluarga, undang-undang, politik, dan media. Konsep dan teori asas pengajian gender juga ditekankan. Pengajian gender adalah satu bidang pengajian yang agak baru di negara ini. Sejajar dengan semangat falsafah pendidikan university, pelajar program akan terlibat dalam proses pemikiran dan penilaian kembali peranan mereka dalam masyarakat. Rancangan ini bertujuan untuk melahirkan satu kumpulan ahli sains sosial dan siswazah yang bersifat multidisiplin serta kritikal terhadap patriarki, ketidakaksamaan, ketidakadilan, neoliberalisme dan segala bentuk penindasan.

Rancangan ini ditubuhkan untuk memenuhi keperluan semasa sebuah negara yang sedang transisi ke arah kemajuan dan kemakmuran yang lebih pesat. RPG menggalakkan kesedaran dan perspektif gender dalam menerapkan pengetahuan, kemahiran dan pengalaman ke alam pekerjaan. Para pelajar akan mendapat manfaat daripada kursus-kursus yang ditawarkan kerana mereka dilatih untuk memupuk suatu perspektif yang lebih sensitif tentang hubungan gender dalam masyarakat dan budaya. Melalui perspektif tersebut, para pelajar akan menjadi lebih sedar terhadap ketidakaksamaan dan ketidakadilan dalam lingkungan budaya, politik, undang-undang dan pembangunan. Rancangan Pengajian Gender merupakan ruang untuk perbincangan intelektual dan pembelajaran melalui pengalaman yang boleh membawa perubahan dalam aspek gender melalui forum, seminar, lawatan, bengkel penulisan, bengkel penyelidikan, tayangan filem dokumentari dan aktiviti pelajar.

INTRODUCTION

THE GENDER STUDIES PROGRAMME began offering a Minor in Gender Studies since the 1994/95 academic session under the auspices of the Faculty of Arts and Social Sciences. The programme is multidisciplinary and offers a variety of courses that integrates the theoretical and practical aspects in amongst others the field of research, development, culture, religion, family, law, politics, and media. Basic theories and concepts in gender studies are also emphasized. Gender studies is a relative new area of studies in this country. In the spirit of the educational philosophy of the university, students enrolled in the programme will engage in critical thinking and re-assess their role in society. The Gender Studies Programme aims to produce multidisciplinary social scientists and graduates who are critical of patriarchy, inequality, injustice, neoliberalism and all forms of oppression.

The Gender Studies Programme was established to meet the demands of a nation transitioning towards greater prosperity and progress. It promotes gender awareness and sensitivity in the application of knowledge, skills and experiences in the workplace. Students will benefit from the courses offered by the programme as they are trained to cultivate a perspective that is sensitive towards the role of gender relations in their community, society, and culture. From their gender-sensitive vantage point, the student will become more attuned to inequality and injustice within the spheres of culture, politics, law and development. The Gender Studies Programme is a space for intellectual discussion and transformative experiential learning about gender through academic forums, seminars, outbound visits, writing workshops, research workshops, documentary film screenings and student-oriented activities.

AIO2009: PENGETAHUAN ORANG ASAL DAN GENDER

AIO2009: INDIGENOUS KNOWLEDGE AND GENDER

SINOPSIS KANDUNGAN KURSUS Proses perkongsian ilmu di antara lelaki dan wanita adalah tidak saksama di dalam beberapa komuniti orang asal. Ideologi yang dominan berkaitan dengan gender adalah berarah kepada proses social dalam membuat keputusan yang lebih menonjolkan dominasi lelaki. Ia juga membolehkan pengetahuan dalam kalangan wanita diambil melalui proses “perkongsian” yang terus mengiktirafkan dan menguatkan dominasi lelaki. Waktu ini di mana perubahan kehidupan berlaku secara pantas, pengetahuan asal menjadi semakin hilang dalam kalangan orang asal tetapi masih mempunyai kerelevanan yang tinggi dalam pengurusan risiko, pembaharuan sumber asli dan pembangunan semula kehidupan. Bagi tujuan memahami proses struktur pengetahuan yang memberikan refleks hubungan kuasa gender dalam komuniti orang asal, pelbagai institusi seperti isirumah, komuniti, NGO dan kerajaan tempatan yang berkaitan dengan pelbagai konteks pengetahuan akan dikaji.	SYNOPSIS OF COURSE CONTENTS <i>The process of knowledge sharing between men and women is not equal in certain indigenous communities. The predominant ideology regarding which gender is more authoritative in the social process of decision-making perpetuates men's domination. It also enables women's knowledge to be extracted through the process of 'sharing' that further legitimates and strengthens men's dominance. In today's rapidly changing way of life, IK has become a scarce commodity amongst the indigenous communities but is still highly significant in various situations including risk management, renewal of natural resources and rebuilding livelihoods. To understand the processes of knowledge structure that reflect gender power relations in indigenous communities, different institutions such as households, communities, NGOs and local governments that are related to different contexts of knowledge will be scrutinized.</i>
HASIL PEMBELAJARAN KURSUS Pada akhir kursus ini, pelajar dapat: 1. Menganalisis secara teori dan praktis, hubungan kuasa di antara lelaki dan wanita berkaitan dengan pengetahuan mereka, mendalami pengetahuan yang dikongsi dan pertukaran pengetahuan tersebut. 2. Menjelaskan proses penggunaan pengetahuan asal secara efektif bertujuan untuk pemeliharaan alam sekitar, pertanian dan pembangunan mampan. 3. Mengecam kepentingan pengetahuan asal dalam isu-isu perubahan cuaca, pengurusan risiko dan pembangunan semula kehidupan selepas bencana. 4. Menghuraikan metodologi penyelidikan “indigenous” dan hak terpelihara pengetahuan asal.	LEARNING OUTCOMES <i>At the end of the course, students will be able to:</i> 1. <i>Analyse the power relationship between men and women related to their knowledge, scrutinize knowledge sharing and exchange between them in theory and practice.</i> 2. <i>Explain the process of utilization of IK for effective environment's conservation, agriculture and sustainable development.</i> 3. <i>Identify the significance of IK in climate change, risk management and rebuilding livelihoods from disaster.</i> 4. <i>Explain indigenous research methodologies and IK intellectual property rights.</i>
